- Zandvoort Historic Festival – Healey Driver international – 8-9<sup>th</sup> July
- Silverstone Classic – 28-30<sup>th</sup> July
- Nostalgia Racingdays & Classic Car Show Mantorp - 18-20<sup>th</sup> August
- Falkenberg Classic - 15-17<sup>th</sup> September

## Popular products

### **Sideways anti-roll bar 22 and 25 mm kit**

This kit is not only well engineered it also uses the original mounting points and is significantly lighter than our competitors solutions. The rod ends are the highest motorsport quality and are left vs. right threaded to enable you to easily remove any preload with driver in place when installed on the car. Designed uniquely to fit on Healeys.

Price: 7 969 SEK incl. VAT

### **Tappet covers with cork seal**

CNC machined from 7075 aluminium. Very strong and accurate compared to the originals pressed steel covers. Eliminates oil leaks and looks good too!

Price: 1 423 SEK incl. VAT

## Popular products

### Competition side exit silencer

Free flow silencer made as large as possible to limit noise but still not compromising engine performance.

Price: 7 500 SEK incl. VAT

### Lubricants and filters for your spring service

Our oils are specially formulated for us for use in classic road and competition cars. The oils contains the best ingredients from modern and classic oils. Please visit our webshop at <http://webshop.healey.se/> to find the oil and filter of your need.

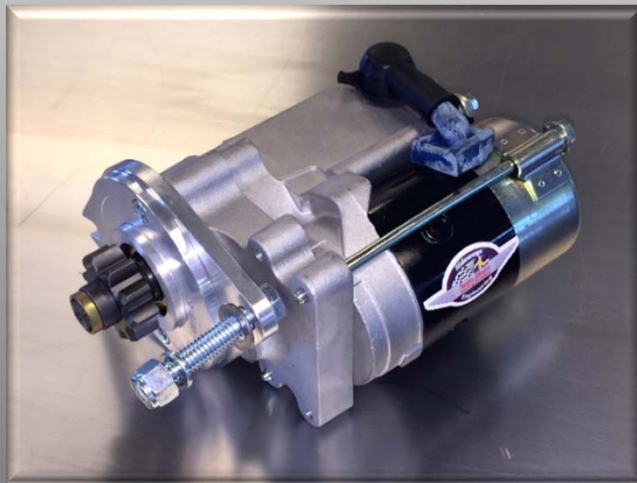

## Popular products

### Up-rated radiator

Newly manufactured with thicker core to cure overheating problems. A good up-grade for road cars and a must for any competition car.

Price: 5 563 SEK incl. VAT

### Starter motor standard and thin ring gear

Super strong and reliable starter motors that also weighs 60% less than the original.

Fits both standard flywheels and ring gears as well as lighter competition versions.

Price: 2 625 SEK incl. VAT

## Popular products

### Crown wheel and pinnion 3.5:1 & 4:3.1

The 3.5:1 ratio is a very popular modification to Healeys nowadays. As the roads are smoother and traffic is faster this modification will greatly improve touring comfort by lowering the revs by approx. 11%.

4:3 is the version to use if you are racing.

Price: 6 000 SEK incl. VAT

### Leaf springs

These springs are made from superior quality Swedish steel and are heat treated twice for maximum strength compared to weight. Our prototypes were tested on two cars for two seasons without any noticeable change in rate or ride-height. Customers who have been using them have been surprised of the quality of our products compared to others.

Price: 6 250 SEK incl. VAT

## Popular products

### **Spinner Spanner – Stop beating it!**

A tool that will stop you from beating your car, save money and cause less irritation! So stop ruining your wheelbearings, wheels, spokes and sending massive shock-waves through your car. Don't ruin the shape or delicate chrome finish on your spinners. Use the Spinner Spanner as it has gentle gripping on the spinner and no more force than what is necessary is ever used!

Made of aluminium that has been CNC machined for accurate fit and shape. The handle is protected with a slippery rubber foam that will eliminate any risk of scratching your car's wings and it weighs only 1,85kg. Available for a huge range of classic cars:

- 2 eared most common version that fits MG, Austin-Healey, Triumph, Morgan etc.
- 2 eared larger version that fits Jaguar, Aston-Martin etc.
- 8 (octagon) shaped spinner commonly used in the later days of centre lock wheels
- Custom made to fit your car. Lotus, Ferrari, Lola, Alfa Romeo, Bugatti...you name it!
- Simply send us your spinner sample and quantity you are interested in and we will send you a quotation.

Price: 2 000 SEK incl. VAT
